Technology Fast500  
EMEA 2008

6 January 2009

## **Sensornet ranked 169<sup>th</sup> of 500 fastest growing technology companies in Europe, Middle East and Africa**

Following success in the prestigious 2008 UK Deloitte Technology Fast 50, Sensornet, the global provider of the most advanced monitoring solutions, has been placed 169<sup>th</sup> of 500 fastest growing technology companies in the Europe, Middle East and Africa (EMEA) region in the Deloitte Technology Fast 500 EMEA programme.

The regional Technology Fast 500 program, initiated in North America in 1997, is in its eighth year in EMEA and recognises technology companies that have achieved the fastest rates of annual revenue growth across the region during the past five years in which Sensornet achieved 1,000 percent during this period.

The company was recently placed 24<sup>th</sup> of the 50 fastest growing technology companies in the UK.

Launched in 1998, Sensornet provides the complete digital monitoring package to the global oil and gas, power, and hydro industries, including offering its own temporary and permanent distributed sensing installation capability. It is rapidly expanding and has offices based globally in Europe, North and South America, the Middle East and Asia-Pacific.

Sensornet's CEO, Neale Carter is delighted with the accolade. "Following our success in the UK rankings, this achievement in the EMEA region is further proof that Sensornet's track record of considerable growth, ambition and technical innovation has been recognised across our key markets.

"We have recently celebrated our tenth anniversary and are very confident in our future growth. We aim to stay at the forefront of developing and delivering monitoring solutions for an ever evolving market, despite the challenging economic climate and this accomplishment is a testament to the hard work and commitment from each member of our team."

ENDS

### **About Sensornet**

Launched in 1998, Sensornet provides the world's most advanced asset monitoring solutions, using real-time distributed temperature and strain measuring systems. Sensornet provides the complete Digital Monitoring package to the global oil and gas, power, and hydro industries, and offers its own temporary and permanent DTS installation
