

Press Release – 27 April 2009

SensorNet Appoints General Manager

SensorNet, the global provider of the most complete monitoring solutions, announces the appointment of Richard Kluth as its general manager.

Richard has more than 15 years experience in the oil and gas industry and has been with SensorNet for 6 years, and moves to his new post from the position as the company's chief operating officer.

SensorNet is part of the recently-formed Tendeka family of companies which aims to consolidate specialist solutions for increased efficiency in well completions and production. Joining SensorNet within Tendeka are swellable elastomers expert Swellfix and wireless well communications and downhole instrumentation specialist Well Technology.

Richard said: "I am honoured to have the privilege of leading SensorNet, ensuring that we maintain our position as technological leaders and continue to surpass our customers' needs.

"This is a very exciting time both for me personally and for SensorNet, and with the support and complimentary product ranges of the Tendeka family, I am convinced we will continue to go from strength to strength"

Richard Kluth, general manager of SensorNet

About SensorNet

Launched in 1998, SensorNet is the global provider of the most complete monitoring solutions to the upstream oil and gas industry by using real-time distributed temperature, strain and pressure measuring systems.

SensorNet is part of the recently-formed Tendeka family of companies which aims to consolidate specialist solutions for increased efficiency in well completions and production. Joining SensorNet within Tendeka are swellable elastomers expert Swellfix and wireless well communications and downhole instrumentation specialist Well Technology.

SensorNet provides the world's most advanced monitoring solutions and offers its own temporary and permanent DTS installation capability. The company is rapidly expanding and has offices based globally in Europe, North and South America, the Middle East and Asia-Pacific.

SensorNet's award winning technology is supported by a highly qualified and experienced technical, operations and management team, which has provided multi-million dollar turnkey solutions to many of the world's leading blue-chip companies. SensorNet is ISO 9001 accredited.

SensorNet was named as the UK's 24th fastest growing technology company in the prestigious Deloitte Technology Fast 50 awards in 2008.

From system engineering and design, to data interpretation services and post delivery support agreements, SensorNet delivers the total monitoring service.
